DEVELOPMENTAL TOOLS—The first step in the development of a new machine is the selection of a design. The design is then developed into a set of drawings that specify the machine's dimensions, materials, and construction. The drawings are then used to build a prototype machine. The prototype is then tested to determine its performance and to identify any problems. The design is then refined and the final machine is built.

DOLE bars inspections to cut graft

By Thomas F. Armistead

THE SENATORIAL race in New York has become a struggle for transparency. The appearance of a gubernatorial campaign website devoted to exposing what is called "Dole's graft" has become a cause.

In the days immediately after an unusual election, the campaign website, www.dolegraft.com, has been a hotbed of activity. The site, which is run by a group of volunteers, has been a source of information for the media and the public.

The website, which is run by a group of volunteers, has been a source of information for the media and the public. The site, which is run by a group of volunteers, has been a source of information for the media and the public.

GMA rebukes foes for violent Makati protest

By [Name]

MANILA (Philippine Daily Inquirer) — GMA rebuked its critics for a violent protest in Makati last night, saying the group's actions were "unbecomingly violent."

The group, which is known as the "GMA 72" or "GMA 72-ers," is a group of former GMA 72 employees who are now working for other media outlets.

The group's actions were described as "unbecomingly violent" by GMA 72's former president, who said the group's actions were "unbecomingly violent" and "unbecomingly violent."

The group's actions were described as "unbecomingly violent" by GMA 72's former president, who said the group's actions were "unbecomingly violent" and "unbecomingly violent."

Pacquiao deserves more than \$15M, says US trainer

By Ben Meehan, Contributor

MANILA, Philippines (AP) — Manny Pacquiao's performance in his recent fight against Oscar De La Hoya was "outstanding," says a top U.S. boxing trainer. "He deserves more than \$15 million," says trainer Bob Arum. "He's the best fighter in the world right now."

Spurs rip Nets; Lakers prevail

SPRINGFIELD, Mass. (AP) — The San Antonio Spurs defeated the New Jersey Nets 107-90 on Monday night, and the Los Angeles Lakers defeated the Phoenix Suns 104-90. The Spurs' Tony Parker scored 25 points, and the Lakers' Kobe Bryant scored 30 points.

Judge's 'body language': She smiled, smirked

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as $\epsilon \rightarrow 0$. It is shown that the solutions of the system (1) converge to the solutions of the system (2) as $\epsilon \rightarrow 0$.

2. In the second part of the paper, the asymptotic expansion of the solutions of the system (1) is constructed. It is shown that the asymptotic expansion of the solutions of the system (1) has the form

$$u = u_0 + \epsilon u_1 + \epsilon^2 u_2 + \dots$$

where u_0, u_1, u_2, \dots are functions of x, y, z, t and ϵ . The functions u_0, u_1, u_2, \dots are determined by the system of equations

$$\begin{aligned}
 &L u_0 = f(x, y, z, t), \\
 &L u_1 = -\epsilon L u_0, \\
 &L u_2 = -\epsilon^2 L u_0 - \epsilon^2 L u_1, \\
 &\dots
 \end{aligned}$$

where L is the operator defined by the system (1). The functions u_0, u_1, u_2, \dots are determined by the system of equations (3) and the initial conditions

$$u_0|_{t=0} = u_1|_{t=0} = u_2|_{t=0} = \dots = 0.$$

3. In the third part of the paper, the asymptotic expansion of the solutions of the system (1) is used to study the stability of the solutions of the system (1) with respect to the initial conditions. It is shown that the solutions of the system (1) are stable with respect to the initial conditions as $\epsilon \rightarrow 0$.

4. In the fourth part of the paper, the asymptotic expansion of the solutions of the system (1) is used to study the stability of the solutions of the system (1) with respect to the parameters of the system. It is shown that the solutions of the system (1) are stable with respect to the parameters of the system as $\epsilon \rightarrow 0$.

5. In the fifth part of the paper, the asymptotic expansion of the solutions of the system (1) is used to study the stability of the solutions of the system (1) with respect to the boundary conditions. It is shown that the solutions of the system (1) are stable with respect to the boundary conditions as $\epsilon \rightarrow 0$.

6. In the sixth part of the paper, the asymptotic expansion of the solutions of the system (1) is used to study the stability of the solutions of the system (1) with respect to the inhomogeneous terms of the system. It is shown that the solutions of the system (1) are stable with respect to the inhomogeneous terms of the system as $\epsilon \rightarrow 0$.

7. In the seventh part of the paper, the asymptotic expansion of the solutions of the system (1) is used to study the stability of the solutions of the system (1) with respect to the initial conditions, the parameters of the system, the boundary conditions, and the inhomogeneous terms of the system. It is shown that the solutions of the system (1) are stable with respect to all these factors as $\epsilon \rightarrow 0$.

8. In the eighth part of the paper, the asymptotic expansion of the solutions of the system (1) is used to study the stability of the solutions of the system (1) with respect to the initial conditions, the parameters of the system, the boundary conditions, and the inhomogeneous terms of the system. It is shown that the solutions of the system (1) are stable with respect to all these factors as $\epsilon \rightarrow 0$.

9. In the ninth part of the paper, the asymptotic expansion of the solutions of the system (1) is used to study the stability of the solutions of the system (1) with respect to the initial conditions, the parameters of the system, the boundary conditions, and the inhomogeneous terms of the system. It is shown that the solutions of the system (1) are stable with respect to all these factors as $\epsilon \rightarrow 0$.

10. In the tenth part of the paper, the asymptotic expansion of the solutions of the system (1) is used to study the stability of the solutions of the system (1) with respect to the initial conditions, the parameters of the system, the boundary conditions, and the inhomogeneous terms of the system. It is shown that the solutions of the system (1) are stable with respect to all these factors as $\epsilon \rightarrow 0$.

Figure 1: A line graph showing the percentage of total sample for each age group (0-14, 15-24, 25-34, 35-44, 45-54, 55-64, 65+) across different years (1970, 1980, 1990, 2000, 2010, 2020). The y-axis ranges from 0 to 100. The x-axis shows the years. The 0-14 age group shows a steady decline from approximately 25% in 1970 to 10% in 2020. The 15-24 age group shows a slight increase from approximately 15% in 1970 to 20% in 2020. The 25-34 age group shows a slight increase from approximately 10% in 1970 to 15% in 2020. The 35-44 age group shows a slight increase from approximately 10% in 1970 to 15% in 2020. The 45-54 age group shows a slight increase from approximately 10% in 1970 to 15% in 2020. The 55-64 age group shows a slight increase from approximately 10% in 1970 to 15% in 2020. The 65+ age group shows a slight increase from approximately 10% in 1970 to 15% in 2020.

19 Italians killed by suicide bomber

At least 19 Italian tourists were killed and 100 others injured in a suicide bombing in the southern Italian city of Palermo on Sunday.

The bomber, a 30-year-old man, was killed in the explosion. The attack took place at a busy pedestrian crossing in the city center.

The attack was the deadliest in the city's history. The bomber was identified as a member of the Red Brigades.

The bomber was seen running towards the crowd before the explosion. The attack was the deadliest in the city's history.

BPI Express Money Order
ka na!
Mabilis, mura at masekuran

Introducing the BPI Express Money Order Card

BPI Express Money Order Card

It's the fastest way to get your money. Just swipe your card at any BPI Express Money Order Card terminal and you're done. No need to wait in line, no need to fill out forms, no need to carry cash. Just swipe your card and you're done.

Features:

- Fast and easy to use
- No need to wait in line
- No need to fill out forms
- No need to carry cash
- Just swipe your card and you're done

Where to use:

- ATMs
- POS terminals
- Online

How to get it:

- Visit www.bpi.com.ph
- Call 1-800-888-8888
- Visit any BPI branch

Jan.-Sept. OFW remittances up 5% to \$5.7B

By Christine S. Bales

OFW Remittances (in millions of US dollars)	Jan.-Sept. 2002	Jan.-Sept. 2001	% Change
Philippines	5,700	5,400	+5.6%

Net job losses inflow hits \$74M

Net job losses in the Philippines reached a record high of \$74 million in the first nine months of 2002, according to a report by the Philippine Overseas Workers' Welfare Administration (POWWA). The report also shows that the total inflow of remittances from OFWs reached \$5.7 billion during the same period, a 5.6% increase from \$5.4 billion in 2001.

The report highlights that the USA remains the top source of remittances, followed by Japan, Germany, France, and the UK. Other countries like Canada, Italy, and Spain also show significant increases in remittance inflows.

UK firms keen on setting up call centers in RP

UK firms are increasingly looking to set up call centers in the Philippines (RP) due to the country's large pool of English-speaking, educated workforce. This trend is expected to continue as more companies seek to reduce costs and improve customer service.

LIFE STYLE

Natural is always the best way to be

By Christine Ferrer-Delacruz
Illustration by [illegible]

Natural is always the best way to be. It's a phrase that's been around for a long time, and it's still true today. In a world where we're constantly bombarded with artificial products and processed foods, it's easy to lose sight of the benefits of nature. But when it comes to health and wellness, natural is always the best way to be.

Whether you're looking for a natural remedy for a common ailment or a way to improve your overall health, there's always a natural solution. From the foods we eat to the products we use on our skin, nature has provided us with everything we need to live a healthy and happy life. So why not embrace the natural world and all the benefits it has to offer?

DIABETES and LIFESTYLE

Diabetes

Diabetes is a chronic condition that affects the body's ability to produce or use insulin, a hormone that regulates blood sugar levels. There are two main types of diabetes: Type 1, which is an autoimmune disease, and Type 2, which is often linked to lifestyle factors like diet and exercise.

While there is no cure for diabetes, there are many ways to manage it and prevent complications. This includes following a healthy diet, getting regular exercise, and taking medication as prescribed by a doctor.

For people with Type 2 diabetes, lifestyle changes can often lead to better blood sugar control. This might include eating more whole grains, fruits, and vegetables, and avoiding sugary drinks and processed foods.

Exercise is also an important part of managing diabetes. Regular physical activity can help improve insulin sensitivity and lower blood sugar levels. Even just a short walk every day can make a difference.

It's also important to monitor blood sugar levels regularly and work closely with a healthcare provider to adjust treatment as needed.

By making these lifestyle changes, people with diabetes can live healthier, more active lives.

Remember, diabetes is a chronic condition, but with the right management, it doesn't have to control your life.

Diabetes is a chronic condition that affects the body's ability to produce or use insulin, a hormone that regulates blood sugar levels. There are two main types of diabetes: Type 1, which is an autoimmune disease, and Type 2, which is often linked to lifestyle factors like diet and exercise.
